Osiris - finding FTSE 100 companies

1. Go to Summon [https://library3.hud.ac.uk/summon/](https://library3.hud.ac.uk/summon/)
2. Click on Subject Guides by your Librarians (in the Links box on the left)
3. Click on Business
4. Select Accountancy & Finance from the drop down list
5. To find information about the FTSE100 companies you should use Osiris, as this contains information about all the FTSE100 companies.
6. Click on Osiris, log in using your normal username and password when prompted
7. On the home screen, select stock data and then indices, see below:

8. From the list select FTSE100 & then click go, see below:

9. Now you’ll be back on the home screen, at the bottom there is a search strategy box – click on View list of results:

PD May 2015
10. The FTSE100 companies are then displayed in a list, you can add in additional data to the table by clicking on columns:

11. Select the variable you require from the list or search for it in the search bar at the bottom, (this example is about ratios):

12. When you have selected the variable it may ask you to specify what year(s) or currency you require, select what you need and then click Ok:
13. Once you have selected all the variable you require, click ok:

14. The additional data will then be added into the search results table, you can then export the data into excel by clicking the icon at the top of the screen. For large data sets this may take quite a long time.
